TRY IT...

We love this innovative baby product from **Clevamama** which will help simplify formula feeds that you make for your baby. The ClevaScoop eliminates the problem of errors in counting scoops which can lead to over, or under-feeding, potentially resulting in excess weight gain or loss of nutrients in babies. It works with all leading brands of formula and is designed to be used several times a day, every day up to 12 months. Retailing at €12.99 it's available from Tesco stores, Smyths Toys and other leading retailers nationwide.
